HQX
HYDRAULIC QUICK COUPLER

HQX HYDRAULIC QUICK COUPLER

2 YEAR WARRANTY • **DEDICATED** FITTING KITS • **1 HOUR** SERVICE TIME

CONNECT AND DISCONNECT ATTACHMENTS FROM THE COMFORT OF YOUR CAB

1 PIECE HYDRAULIC ASSEMBLY
Keeps servicing times to a minimum. Assembly and disassembly time is around 15 minutes.

LIFTING EYE
LOLER rated lifting eye, rated from 800kg WLL, up to 5000kg WLL, depending on coupler size.

FRONT PIN DEADLOCK
Locks the front pin of the attachment into the front hook to stop unsafe ejection if not secured in the rear latch.

HYDRAULIC PORTS
Front facing hydraulic ports for easy fitting and removal during service and maintenance.

BUILT-IN CHECK VALVES
Maintains pressure in the cylinder, keeping the attachment securely mounted in the event of a hydraulic system failure.

HI-VIS LOCKING REAR LATCH
Locks the coupler into the rear pin of the attachment. High visibility so you can clearly see when the latch is engaged.

FRONT HOOK PIN POCKET
Reduces the chance of the front pin of the attachment unsafely ejecting during mounting and detaching.

HQX COUPLER COMPLIES TO THE FOLLOWING STANDARDS:

ISO 13031:2016 & BS EN 474-3:2022

AVAILABLE FOR 1.5-9 TON MINI DIGGERS & EXCAVATORS

HQX
HYDRAULIC QUICK COUPLER

DEDICATED FITTING KITS

All Rhinox hydraulic quick couplers are supplied with a fitting kit, tailored to your specific excavator make and model, **to make installation simple and hassle-free.** No spare components. No excessive hose lengths.

The hydraulic hoses and electrical connectors in the Rhinox fitting kits are also **colour-coded** and **labelled** to make it easy to identify which connectors go together when installing. With the simple design keeping inspection and servicing times to under an hour with an assembly and disassembly time of around 15 minutes.

THESE KITS COULD INCLUDE:

- Pressure Switch Assembly
- Activation Switch
- Control Unit
- Boom Hose Kit
- Tail Hose Kit
- Solenoid Valve
