RHINOX
XTREME PERFORMANCE

DESIGNED TO PREVENT DAMAGE AND KEEP THE DIRT OUT

PROTECTS TILT ROTATOR FROM DAMAGE

The stand keeps your tilt rotator off the ground, preventing dirt and moisture from reaching the hitch. A simple safeguard that helps the life of your equipment.

FORK POCKETS FOR EASY LIFTING

The fork pockets make the stand easy to lift and transport using a telehandler or excavator pallet forks. This allows for hassle-free movement while helping prevent accidental knocks or damage to your hitch.

SWITCH ATTACHMENTS SAFELY ON-SITE

When it's time to swap to a breaker or other hard-wearing attachments, the stand gives you a safe place to set down your tilt rotator, protecting your hitch from potential damage on site.

COMPACT AND ROBUST DESIGN

Built tough from structural steel, the stand is both compact and durable, taking up minimal space while standing up to the harsh conditions of site work.
